

Jonathan (Jack) Holmes

Software Developer

425-802-7216 | jdhomes48@gmail.com

[LinkedIn](#) | [Github](#) | [Instagram](#)

I am a software developer with a passion for solving complex problems and creating unique digital experiences. I possess strong communication skills and creativity that enable me to look at problem-solving from an outside the box perspective. My extensive background in the performing arts working as a professional actor has enabled me to hone my composure under-pressure, focus on the details in the bigger picture, and make me an effective and creative collaborator.

TECHNICAL SKILLS

Front End: JavaScript, HTML, CSS, React JS, JSX, Material UI, Semantic UI, Bootstrap CSS, Babel, RSpec

Back End: Python, Ruby/Ruby on Rails, Node.js, SQL, PostgreSQL, SQLite, BCrypt, Active Storage, Cloud Storage (S3, Azure)

Other: Socket.io, Git/Github, Visual Studio Code, Figma, OOP, Postman, Asana, Sprinklr

TECHNICAL PROJECTS

Dump - [Github](#) | [Demo](#)

Cultivating the art of the Photo Dump

- Designed almost entirely with customized Material UI components to achieve a clean and cohesive user interface.
- Incorporated a Socket.io server in order to provide users with real-time follow notifications.
- Implemented Rails Active Storage connected to an Amazon S3 bucket to securely store user content in the cloud.

BlogShare - [Github](#) | [Demo](#)

A crowdsourced catalogue of tech blog posts written by bootcamp students

- Built a front-end that leverages multiple design tools and React libraries (Material UI, React Router, Slide Routes, etc.)
- Seeded JSON data that persists seamlessly with user interaction.
- Constructed multiple filters in the browse page for a more thorough digital experience.

The Meme Generator - [Github](#) | [Demo](#)

A Javascript application dedicated to sharing and generating the latest memes

- Used SMTP.js and an Elastic Email SMTP Server to allow for email sending capabilities.
- Leveraged Google Fonts and CSS to create custom styling.
- Wrote JavaScript, HTML, and CSS code that is scalable and DRY

EXPERIENCE

Sunday In Brooklyn

Server

Brooklyn, NY
