TECHNICAL PROJECTS

Dump - Demo
Cultivating the Art of the Photo Dump
- Designed using customized Material UI components to achieve a clean and cohesive user interface.
- Incorporated a Socket.io server to provide users with real-time follower notifications.
- Implemented Rails Active Storage connected to an Amazon S3 bucket to securely store user content in the cloud.

BlogShare - Demo
A crowdsourced catalog of tech blog posts written by bootcamp students
- Built a front-end application leveraging multiple design tools and React libraries (React Router, Slide Routes, etc.)
- Collaborated with team members using version control (Git/Github) and Scrum framework to optimize workflow
- Constructed multiple nested JavaScript filters to maximize search capabilities.

WORK EXPERIENCE

Customer-centric service and hospitality lead
- Creative problem solving with a customer-first perspective resulting in consistently rated top server quarterly
- Effective multi-tasking in a high-pressure environment while ensuring white glove customer experience
- Drove strong front-of-house and kitchen collaboration resulting in consistently high-quality service

Company	Dates	Position
Ethan Stowell Restaurants (Tavolata)	2023 - Current	Server
Sunday Hospitality Group (Sunday in Brooklyn)	2022-2023	Server
Sleeping Giant Hospitality Group (The Spaniard)	2020-2022	Server
